President's Message

I would like to start my report this month about an incident that took place at another club that I am a member of.

A member of that club was getting ready to shoot in a precision pistol match and was taking their pistol out of the gun box and had the pistol pointing up range and pointing at their body. The pistol had a live round in it and somehow it went off shooting the person in their stomach area. Luckily the wound wasn't serious, still the rescue squad were called and of course the police showed up due to the fact that it was a shooting issue.

I'm not going to get into the rest of the details of the incident, but what got me thinking what would happen at our club if this took place. We have a lot of members that come to the range for recreational shooting and they are by themselves with no one else at the range. If something like this happens, they are in trouble, especially if it is a serious wound.

The main point that I am trying to make is that all members need to be extra careful in handling their gun and keep them pointed down range at all times when taking your gun out of your gun box, make sure it is unloaded and after you finish shooting make sure your gun is unloaded before putting it away.

When the weather starts to warm up, I am going to send out a email for members to attend several work parties to get the club cleaned up after a long cold winter. The work will be held on weekends so if you can volunteer to help it will be appreciated.

Mike Brown is working with a group of Eagle Scouts who are proposing to treat the fence around the Rimfire range and baffles with a preservative as a Scout project.

When this takes place, the range will be closed until they are finished.

Pat DiMauro, President

Please submit all items for consideration in the Marksman in Word format by the 17th of each month to the MARKSMAN PUBLISHER – Dan Carrick
