# The Marksman

## President's Message

I would ask the members to bear with us as we go thru this transition on how we conduct club business.

Badi Joyce who is a club member and works for the company that has set up the key card system for entering and exiting the club gate and building, has agreed to manage the system.

The way it is going to work is that when a member pays their dues Badi will send them an app by email to download in their phone. This app will allow you to open the gate, it will also allow you to enter the club house and indoor range.

The member can also request a key card that I will mail to them. Feel free to email me or call me if you have any questions. Club dues renewal start in May and as members pay they will be sent the app. This app or key card will open the doors on the building only. The gate will have a key pad that you will have to punch in the correct code. The code will remain the same until the July meeting. After that you will have to use the app in your phone or your key card to go through the gate.

The Board voted to hire a company to manage some of the operations of the club. The company will maintain the webpage, calendar, marksman and membership. It will take several weeks to get this all set up. I will send out a notice thru Danny on how it is going to work and how you will be able to pay your dues thru this company. I will also explain how you can access the Marksman and calendar. One of the most important issues is that we have your email address. I have been told that some members are not getting the Marksman or notices that we are sending out because there is an issue with their email.

I would like to thank all the club officers that ran for another term. Also we have a new member elected to the Board. Paquita Wioggen was elected as a club Trustee. The next orientation will be held on April 24th at 1pm.

I would like to Thank Marlin Ewing and Pat Traynor for overseeing the work on the lower range. They spent a lot of time engineering the drainage issues on the lower range and working with the contractor on correcting these problems.

Pat DiMauro, President
